Digital Dimensions Joins DPI Art Services

We are excited to announce that as of June 1st, David Klein of Digital Dimensions will be joining forces with DPI Art Services. With our joined forces, we are actively serving over 300 artists in MN and the surrounding areas, as well as national artists and publishers. We are excited to have David and his team come aboard to create one of the largest giclee/print houses in the Midwest. Along with scanning and printing services, we are also able to offer you other beneficial services such as mounting, stretching, and framing your prints. ♦

DPI Offers Free Presentations

During the months of June and July and throughout the year, we will be offering FREE Art Reproduction/ Giclee presentations. We find that this type of presentation is very beneficial to artists as it is very informative and educational. We would be willing to have the presentation either at your site or here, depending on the size and location of your group. We will have samples and printed information along with a question/answer session, etc. Also, if the presentation were to take place here, the artists would be able to experience the giclee process first hand, along with a full tour of our facility. Remember, we are willing to travel to anywhere in Minnesota to present to your group. Please contact me at rhonda@dpiartservices.com or call me at 612-721-2434 to schedule a presentation. Also, on the 2nd Wednesday of each month (June 14th and July 12th), we will have an open presentation at our facility at 7:00 PM for any individual artists that would like to come. Please sign up on the DPI Art Services website (www.dpiartservices.com) and RSVP for either date.

Also, do you know any type of "information center" (i.e. bulletin board, etc.) that we may be able to leave some "artists pamphlets" off at? We would love to put this information in front of as many artists as we can, as we would like to let them know of our products and services. Please let us know if we would be allowed to drop off or mail some "artists packets" at your location where it would be convenient for the artists to pick up at their leisure. ♦

Artist Spotlight:

ARTIST SPOTLIGHT: TIM HEIR

DPI Art Services is happy to announce our artist of the month, Tim Heir. Tim comes to us from Hugo, MN and is a phenomenal pencil and pastel artist. He specializes in custom motorcycle illustration and commissioned portrait art, along with animal portraits. His work recently was displayed at the Donny Smith Bike Show that took place in St. Paul in March 2006. See Tim's work on his website at www.heirart.com.

For every quarterly newsletter, DPI Art Services will choose an artist that we feel deserves some recognition in our "Artist Spotlight" section. Each person chosen will be entitled to 1 free Cruse Scan and giclee print up to 24"x36". Be sure to check our future editions of this newsletter, you could be next! Congratulations Tim! ♦

NEW TECHNOLOGY: ROLAND PRINTER

Stemming from the merger with Digital Dimensions, DPI Art Services is now able to offer the benefit of the Roland FJ540 Hi-Fi Jet PRO II printer. The Roland printers have a reputation in the printing industry for being one of the most reliable large format printers on the market. This printer is recognized as the preferred giclée printer on the market today due to its superiority in terms of image quality, production speed, and dependability. The printer utilizes a variable droplet technology to produce prints at a high resolution that can truly be described as 1440 x 1440 dpi. Also, with a 54" maximum width, we are able to produce even the largest of giclée prints at your request.

We are now able to offer you one of the finest papers on the market, the Hahnemuhle Photo Rag line. Available in 310 gsm stock, this paper has a bright white point, and is primarily designed for use in the reproduction of photographs and shiny or vibrant pieces. ♦

DISCOUNT COUPONS:

Save 25% on a Cruse Scan

This offer is available to new customers only.
Coupon must be present at time of order.

The Cruse Scanner, with a 48" x 72" x 4" bed and incredible resolution and detail, is considered the best fine art scanner in the world. If you have used the Cruse scanning service, you know what I am talking about. If you haven't, now is your time. I guarantee you will be in awe! This fine piece of equipment is the backbone to our entire giclee process; you can even scan a painting through glass!

Coupon must be present at time of order. Not valid with any other offer. Offer expires: July 31, 2006.

10% off your entire order

Receive 10% off your entire order when you order 5 giclée prints.
